STANDARD

Open Skid Frame

These generators are purpose built to match the engine to the constant running load of the electric pump and the alternator to the high starting load of the pump motor. They are built for heavy loads and long running hours and can be matched up with any of our heavy duty diesel engine range.

FEATURES & BENEFITS

- Australian designed & manufactured to suit Australian conditions
- Heavy duty 1500 rpm diesel engines
- 4 pole commercial generators with circuit breaker protection
- Gen Smart Auto/Manual Start controllers with full generator shut down protection
- Optional 4G mobile phone messaging
- Optional weather proof power outlets three and single phase for quick easy connection
- Easy servicing access on one side
- Optional 1000 hour extended engine servicing

Belt Drive

Roll frame sets with belt drive and single phase output

Skid Base

Open skid frame 3 phase sets with optional 90 to 150 litre fuel tanks in base

Canopy Enclosed

Fully enclosed sound attenuated all weather canopy with 200 to 600 litre fuel tanks in base

Typical Duty Specifications

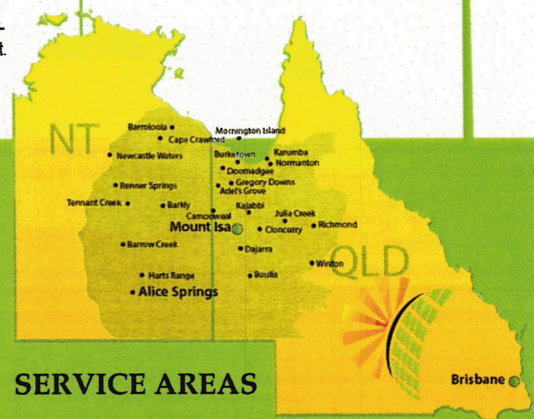

- Operation-attended
- Duty - Prime power 24hrs/7days
- Location - Outdoor 50° C ambient
- Noise level 68 dba @ 7 meters
- Protection and control - Full engine protection low oil pressure, high water temp, over and under speed shutdown, low battery voltage alarm, low fuel level alarm and shut down
- Visual Hertz and Volts 415 phase to phase and 240 phase to neutral
- Full electrical protection for AC
- Gen set circuit breaker rating 63 amp
- Circuit breaker protection -over current
- Circuit breaker type- Air
- All servicing accessible from one side

SPECIFICATIONS - Bore Pump Generators

Generator Model	Electric Pump & Motor Size	Belt Drive	Skid Base	Canopy	Skid Base Fuel Tank Size, litres	Canopy Base Fuel Tank Size, litres
BHP1P1.1	1.1 kW, 240 V AC, Single Phase	✓			100	
BHP1P1.5	1.5 kW, 240 V AC, Single Phase	✓			100	
BHP1P2.2	2.2 kW, 240 V AC, Single Phase	✓			100	
BHP3P3.7	3.7 kW, 415 V AC, 3 Phase		✓	✓	100-150	400
BHP3P4.0	4.0 kW, 415 V AC, 3 Phase		✓	✓	100-150	400
BHP3P5.5	5.5 kW, 415 V AC, 3 Phase		✓	✓	100-150	400
BHP3P7.5	7.5 kW, 415 V AC, 3 Phase		✓	✓	150	400
BHP3P11.0	11 kW, 415 V AC, 3 Phase		✓	✓	150	400
BHP3P15.0	15 kW, 415 V AC, 3 Phase		✓	✓	200	400
BHP3P18.0	18.5 kW, 415 V AC, 3 Phase		✓	✓	200	400
BHP3P22.0	22 kW, 415 V AC, 3 Phase		✓	✓	200	400
BHP3P30.0	30 kW, 415 V AC, 3 Phase		✓	✓	500	500
BHP3P37.0	37 kW, 415 V AC, 3 Phase		✓	✓	500	500
BHP3P45.0	45 kW, 415 V AC, 3 Phase		✓	✓	500	500
BHP3P55.0	55 kW, 415 V AC, 3 Phase		✓	✓	500	500
BHP3P75.0	75 kW, 415 V AC, 3 Phase		✓	✓	500	500
BHP3P90.0	90.0 kW, 415 V AC, 3 Phase		✓	✓	500	500
BHP3P110.0	110 kW, 415 V AC, 3 Phase		✓	✓	500	500
BHP3P130.0	130 kW, 415 V AC, 3 Phase		✓	✓	500	500

Note: 1. All specifications subject to change without notice. 2. Optional fuel tanks available up to 2000 litres 3. Other models available on request.
